PROFILE

Aspiring Web Developer with a passion for creating intuitive and dynamic web applications using the MERN stack. Eager to leverage my technical skills and dedication to deliver high-quality projects in a collaborative and growth-oriented environment. Committed to continuous learning and self-improvement to stay at the forefront of web development technologies.

WORK EXPERIENCE

Open Source Contribution

HACTOBERFEST-2k22

2020-2022

- Actively participated in Hacktoberfest, an annual open-source contribution event, making valuable contributions to various GitHub repositories.
- Collaborated with developers from diverse backgrounds, working on bug fixes, feature implementations, and documentation enhancements to improve project quality and functionality.
- Demonstrated strong teamwork, problem-solving, and version control skills by submitting four high-quality pull requests, earning recognition and a Hacktoberfest digital badge for successful completion of the event.

VOLUNTEERING

GDSC WEB DEVELOPMENT CO-LEAD

Google DSC MET

2022-2023

- Actively volunteered as a member of the Google Developer Student Club (GDSC) at MET BKC, fostering a vibrant tech community on campus.
- Coordinated and executed tech workshops, coding competitions.
- Amplified event participation and engagement by leveraging social media and on-campus channels, resulting in increased attendance and positive feedback.
- Facilitated guest speaker sessions, bringing industry professionals to campus and enriching students with valuable insights and trends in the technology field.
- Collaborated in brainstorming and planning sessions, contributing innovative ideas to enhance the impact and effectiveness of GDSC's initiatives.

PROJECTS

CI-CD Pipeline Using Jenkins,ANT,Git,Tomcat,Java

- Implemented and maintained CI/CD pipelines using Jenkins, ANT, Git, Tomcat, and Java to automate build, test, and deployment processes for Java applications.
- Configured automated pipeline (Jenkins) and deployment (Ansible) to improve development efficiency and ensure code quality across multiple environments.
- Proficient in version control management with Git to facilitate collaboration and manage code repositories effectively.
- Utilized Docker or Tomcat for containerization for enhancing application scalability and performance.

SHOPPING CART USING PHP AND MYSQL

- Developed a fully functional shopping cart web application using PHP and MySQL, showcasing expertise in back-end development and database integration for seamless user shopping experiences.
- Utilized MySQL to efficiently manage product inventory, order history, and customer information, optimizing database performance for smooth and scalable operations
